

# INSTRUCTIONS FOR MEASURING

*(All measurements are to be ACTUAL BODY MEASUREMENTS. We add the ease)*

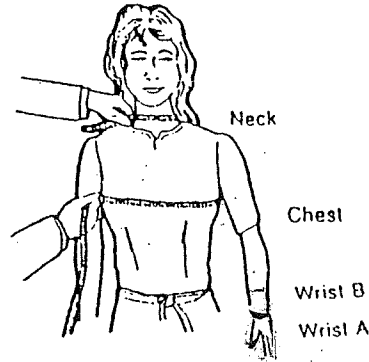

FIGURE 1 (Above)

**NECK** Take measurement at base of neck

**CHEST** Place tape under arm pits around back then across the fullest part of the chest. For full busted females, please take an additional measurement from one side seam across the bust in front to the other side seam and write in the bust measurement i.e., Bust 48 (28).

**WRIST**

- A. Place tape around wrist where hand connects (at wrist bone)
- B. Place tape at wrist bone and measure the circumference

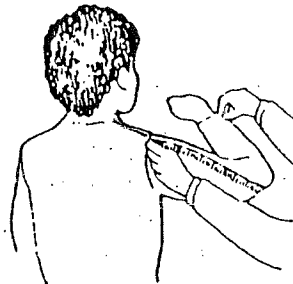

Figure 2 (Above)

**SLEEVE LENGTH** Bend arm as in Figure 2. Place tape on shoulder/sleeve seam at armhole and measure around elbow to far end of wrist bone.

**ROBE LENGTH** Measure from center of shoulder blade down front over chest area down to ankle or desired length. If individual is wearing a garment that has a seam on shoulder, use that as a guide for a starting point. Be sure to bring measuring tape over female breast since fuller breasts will affect the length of the garment. Shoes should be worn when measuring. Please note that our standard robe length is usually worn 1-2 inches above the ankle.
